

I design and build neat stuff. Initially, my interests lie in Graphic Arts, Product Design or Drafting. Ultimately, I am interested in Project Lead or Senior positions in the design of a wide range of technical and innovative products existing in a digital, printed or physical nature. My goal is to be challenged and properly utilized for my multifaceted skills and knowledge.

My portfolios (<http://www.krop.com/granolapete> and <http://www.granolapete.com>) can be viewed online. Having been raised with a solid work ethic and a commitment to quality, I deliver. Currently I reside in Al Ain, UAE with a "residency Visa", where my wife teaches Elementary School. I am fluent in English, able to communicate in Spanish, and have begun taking lessons in Arabic.
